

*Front Matter*

- Branches of Knowledge and Their Fruits  
1 *By Cover Art Contest Winner, William Steele*
- Preface  
2 *By R. Steele*
- Masthead  
3 *By R. Steele*
- Letter from the Editor-in-Chief  
4 *By R. Steele*
- University of Manitoba Faculty Profile  
5 *By T. Black*
- Innovation and Expanding Horizons within Research at the University of Manitoba  
7 *By V. Lockman*

*Research*

- Estimation of Ectoparasites in an African Ground Squirrel  
10 *By J. Beaumont, A. Beaumont, A. Halajian, & J. M. Waterman*
- Crushed Glass as a Constructed Wetland Substrate: Invertebrate Community Responses to Simulated Wastewater Inputs  
14 *By Best Research Article Contest Winner Braedon W. Humeniuk, L. G. Chaves-Barquero, C. S. Wong, & M. L. Hanson*

*Reviews*

- Role of RNA-interference in Crop Pests and Disease Vector Control  
28 *By V. Arya*
- Gonadal Development, Social Structure, and Implications of Protandry by Aggressive Dominance in *Amphiprion* Anemonefish  
33 *By I. Jorgenson*

*Research Poster Competition*

- Advancing Data Analytics for Decoding Gendered Language in Job Advertisements of STEM Fields  
36 *By A. Nabong*
- Female-Specific Larval Lethality in the Yellow Fever Mosquito *Aedes aegypti*  
38 *By K. Roznik*
- Structural Insights into Metal-Organic Connectivity by Paramagnetic NMR  
40 *By L. Walld*
- Effects of Filtration Techniques in Identifying Dissolved Reactive Phosphorus versus Particulates in South Tobacco Creek Watershed  
42 *By S. Young*
- Phenotypic Analysis of Multi-Drug Resistant Cystic Fibrosis Clinical Isolates of *Pseudomonas aeruginosa* strains  
44 *By R. Zimmer*

*Submissions*

- How to Submit  
46 *By PMUSER Editorial Team*
