About PMUSER

Proceedings of Manitoba's Undergraduate Science and Engineering Research (PMUSER) is an open-access refereed journal that is published annually and hosted by the University of Manitoba. The journal accepts research or review manuscripts written by undergraduate students from any science or engineering related faculty including, but not limited to, Engineering; Science; Human Ecology; Environment, Earth, and Resources; Agriculture and Food Sciences; Nursing; and Medicine. Upon submission, each manuscript undergoes a double blind peer-review process by two undergraduate/graduate students from a pool associated with the respective research area.

Aims & Scope

The focus of *PMUSER* is three fold. The circulation of a peer-reviewed undergraduate journal will provide a chance for students to receive recognition for their research in a wide range of scientific disciplines. The undertaking of writing a journal manuscript will further enhance the understanding of the significance of their respective projects in a broader context. This, in turn, will foster a tremendous growth in their intellectual development outside of the classroom setting, and serves as preparation for a career in research.

Copyright Info

For Authors

PMUSER is licensed under a Creative Commons Attribution-ShareAlike 4.0 International License (<https://creativecommons.org/licenses/by-sa/4.0>). The authors hold the copyright to published articles without restriction, and retain publishing rights.

For Readers

Author(s) grant readers access to published articles freely as long as the original authors and citation details are identified. The article and associated content are published under a Creative Commons Attribution-ShareAlike 4.0 International License (<https://creativecommons.org/licenses/by-sa/4.0>).

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.
